

REPEAT COURSE

Procedure PR 716.01: Course Repeat

Students are allowed to repeat courses at Moraine Park. Health and nursing-related courses can be repeated once – all other courses can be repeated twice. Students requesting an exception to this procedure must work with the Associate Dean who oversees the instructional area of the course.

All attempts remain on the student's official transcript; however, **only the most recent attempt will be used in GPA** calculations and to determine credits earned and attempted. Note: All attempts are considered when determining eligibility for financial aid.
