36 Lab hours

206-115 - After Effects and Video Production

After Effects and Video Production is an intermediate After Effects class combined with an intermediate exploration into Video Production. The After Effects portion of the class will be a project-based course that explores intermediate techniques of motion graphic animations utilizing Adobe After Effects. Projects include logo, info-graphic, and special effect animations. The Video component of the class will explore advance lighting techniques as it applies to interviews and product promotions. Develop video production techniques as they further explore video as a storytelling medium. (Prerequisite: 206-104 Interactive Design and Authoring)
