

TRUCK DRIVING

Technical Diploma: 30-458-1

Campus: West Bend

About the Program

Over-the-road (long-distance) truck drivers are professional drivers who deliver goods between locations hundreds or thousands of miles apart. Local truck drivers move goods from terminals and warehouses to factories, stores and homes in the area. Skilled drivers maneuver trucks into tight parking spaces, through narrow alleys and up to loading platforms. This program offers training in local and over-the-road truck driving. Students experience classroom lessons and exercises with the semi tractor/trailer.

Course Requirements

Course	Title	Credits
