

ELECTRICITY

Program Number: 31-413-1

Technical Diploma (1 year)

Campus: Fond du Lac; West Bend

This program is eligible for financial aid (<http://www.morainepark.edu/financial-aid/>)

Prepare for the State Electrical Apprenticeship program and enter a career in electricity with Moraine Park Technical College's two-semester electricity diploma.

About the Program

The Electricity program provides students with a strong foundation in general electrical concepts. Students gain skills in residential, commercial and industrial electricity. From analyzing electrical circuits to investigating theories and principles of renewable energy, this program provides students with a wide skillset and prepares graduates to enter the workforce and become an electrician apprentice.

What You'll Learn

Students in the Electricity program gain hands-on training in reading blueprints, using trade-specific math, and understanding electrical code and theory. Students also review renewable energy theories and principles.

Graduates are skilled in applying electrical codes, evaluating electrical circuits, and installing electrical equipment in residential, industrial and commercial settings. They are also prepared to explain and follow construction safety practices.

Transfer Opportunities

Your academic journey can continue at a four-year college or university. Earn your associate degree at Moraine Park and then apply those credits toward a bachelor's degree. Starting at MPTC makes completing a bachelor's degree **affordable**, **accessible** and **convenient**. You can go anywhere as MPTC has transfer agreements with colleges and universities both in Wisconsin and throughout the country.

Visit the Transfer to a Four-Year College (<https://www.morainepark.edu/transfer-to-a-four-year-college/>) page for more information on credit transfer agreements between Moraine Park and four-year colleges, both public and private.

Additional Information

Note: Students must purchase a tool kit for this program.
