

# TITLE VI LANGUAGE ACCESS POLICY

---

Moraine Park Technical College works to create inclusive spaces for our students and the community by identifying language as a potential barrier to the recruitment, admission and retention of our students and their families. The policy is a guide to ensure we are providing an equitable experience for LEP students and families using interpreters, translators, Language Access tool and literature and videos in languages other than English. In addition to a Language Access Plan, the college has designated a LEP Coordinator to work with all departments to ensure practices are being followed and supports are in place.
